

Kill Off

**READY TO USE INSECTICIDE/ACARIDAE
IN WATER MICROEMULSION
TO CONTROL FLYING AND CRAWLING INSECTS
WITH BROAD-SPECTRUM ACTION**

Kill Off
is a broad-spectrum
action product, suitable
for the environment
where the animal lives
and rests.

Kill Off
is more effective because it uses
the synergy of three active principles
in water microemulsion:

- Permethrin;
- Pyrethrum Extract;
- Piperonyl Butoxide.

Kill Off
can be applied directly
on kennels, carpets,
sofas, mattresses,
carpets, curtains, etc.

Kill Off
acts against crawling
and flying insects, both
adult and in larval forms.
It is especially effective
against:

- Phlebotomists;
- Mosquitoes;
- Ticks;
- Cloth moths.

Kill Off
does not stain
and it is odourless.

Kill Off
has an insecticide/acaricide
destructive and flushing activity.

Composition: 100g of product contains: Technical Permethrin (25/75) 0,62 g; Pyrethrum Extract 50% 0,06 g; Technical Piperonyl Butoxide 0,20 g; Coformulants and water q.s. to 100 g.
